Portfolio | GitHub | LinkedIn

Professional Summary

Full Stack Engineer with 3+ years building enterprise-grade web platforms, AI-powered applications, and cloud-native systems. Proficient in TypeScript, Node.js, Next.js, NestJS, PostgreSQL, and AI/LLM integrations including LangChain, OpenAI API, and RAG pipelines. Proven track record delivering production systems across legal-tech, insurtech, travel-tech, coworking, and edtech domains using monorepo architectures, microservices, and cloud platforms (AWS, GCP).

Experience

India Accelerator Full Stack Developer Sector 28, Gurugram	Jul 2025 – Present
- Architected enterprise platforms including vehicle claim management, legal-tech APIs, and coworking automation using NestJS, Next.js, PostgreSQL, Redis, GCP, TurboRepo monorepo, and AI integrations. - Integrated OpenAI Vision API into real-time image verification pipelines for AI-powered damage detection, reducing manual claim assessment time by ~40%. - Built and deployed approval engines, operational automations, and WiFi access provisioning systems, improving platform workflow efficiency across enterprise clients.	
DoubleKlick Designs Full Stack Developer Okhla Phase-I, New Delhi	Dec 2024 – Jul 2025
- Developed scalable full-stack applications using Next.js, NestJS, Prisma ORM, MongoDB, and AWS, delivering production-grade REST APIs with robust authentication and authorization flows. - Unified 5+ challan provider APIs into a single optimized gateway using Redis caching, slashing response time from 10+ minutes to under 3 seconds serving 10k+ monthly requests. - Implemented CI/CD pipelines and AWS deployments (EC2, S3, Lambda), improving release velocity and reducing production deployment errors by 25%.	
Corplyx Technologies Pvt. Ltd. Software Engineer Sector-62, Noida	Jun 2023 – Nov 2024
- Led scalable web application development, streamlining backend query performance and frontend bundle sizes to achieve 30% reduction in page load times across core product modules. - Constructed React.js interfaces with Redux state management and connected Node.js/Express.js backends with MongoDB for high-throughput data workflows serving production users.	
Infotech Software Solutions Software Developer Sector-10, Noida	Sept 2022 – Jun 2023
Developed backend microservices, frontend components, and enhanced database workflows resulting in 15% improvement in system response times.	

Skills

Languages: JavaScript, TypeScript, Python, SQL, GraphQL, C++
Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI, Shadcn/UI
Backend: Node.js, NestJS, Express.js, Prisma ORM, REST APIs, GraphQL APIs, WebSockets, Redis, BullMQ
AI / ML: LangChain, OpenAI API, RAG Pipelines, Vector DBs (Pinecone, ChromaDB), Prompt Engineering, Hugging Face
Cloud / DevOps: AWS (EC2, S3, Lambda, RDS), GCP, Docker, Kubernetes, CI/CD, Nginx, TurboRepo, Monorepo
Databases: PostgreSQL, MongoDB, MySQL, Redis, Firebase, Supabase, Pinecone

Projects

Paramount [link]	Next.js, NestJS, PostgreSQL, OpenAI Vision API
AI-powered vehicle claim management platform with insurance integrations, real-time image-based damage detection, automated approval workflows, and multi-role access control.	
Bhraman Together [link]	NestJS, Next.js, MongoDB, AWS RDS, Google Maps API
End-to-end travel and destination booking platform with cab booking, geospatial search via MongoDB geospatial queries, Google Maps route planning, and real-time availability workflows.	
Lawyered – ChallanPay [link]	Node.js, Prisma ORM, PostgreSQL, Redis
Legal-tech platform consolidating 5+ challan provider APIs into a single gateway; Redis caching reduced response time from 10 min to <3 sec for 10k+ monthly requests.	
RAG Knowledge Base [link]	Python, LangChain, OpenAI API, ChromaDB, Streamlit
AI-powered PDF conversational platform using Retrieval-Augmented Generation for semantic search, contextual Q&A, and LLM-grounded document intelligence.	
IA Spaces Coworking [link]	NestJS, Next.js, PostgreSQL
Coworking management platform with WiFi access automation, seat booking workflows, and enterprise approval integrations.	
Digital Vidya Saarthi [link]	MERN, Redux
School management system with attendance tracking, enrollment workflows, and parent-teacher communication modules.	
RukiyeZara [link]	Next.js, TypeScript, Supabase
Scalable property booking platform with geolocation search, booking workflows, and optimized frontend performance achieving sub-2s load times.	

Education

Greater Noida Institute of Technology Bachelor of Technology, Computer Science	Greater Noida Jul 2018 – Jun 2022
--	---

Certifications

- Software Engineering Certification – FreeCodeCamp [view](#)
- Data Science Certification – Kaggle [view](#)
- The AI Engineer Path – Scrimba [view](#)
